ZEVANTAA

CAREERS PVT LTD

BRAND IDENTITY GUIDELINES

Master Logo, Colour, Typography & Usage Standards

VERSION 1.1 | AUGUST 2026

Prepared for Zevantaa Careers Pvt Ltd

Prepared by Sofiology

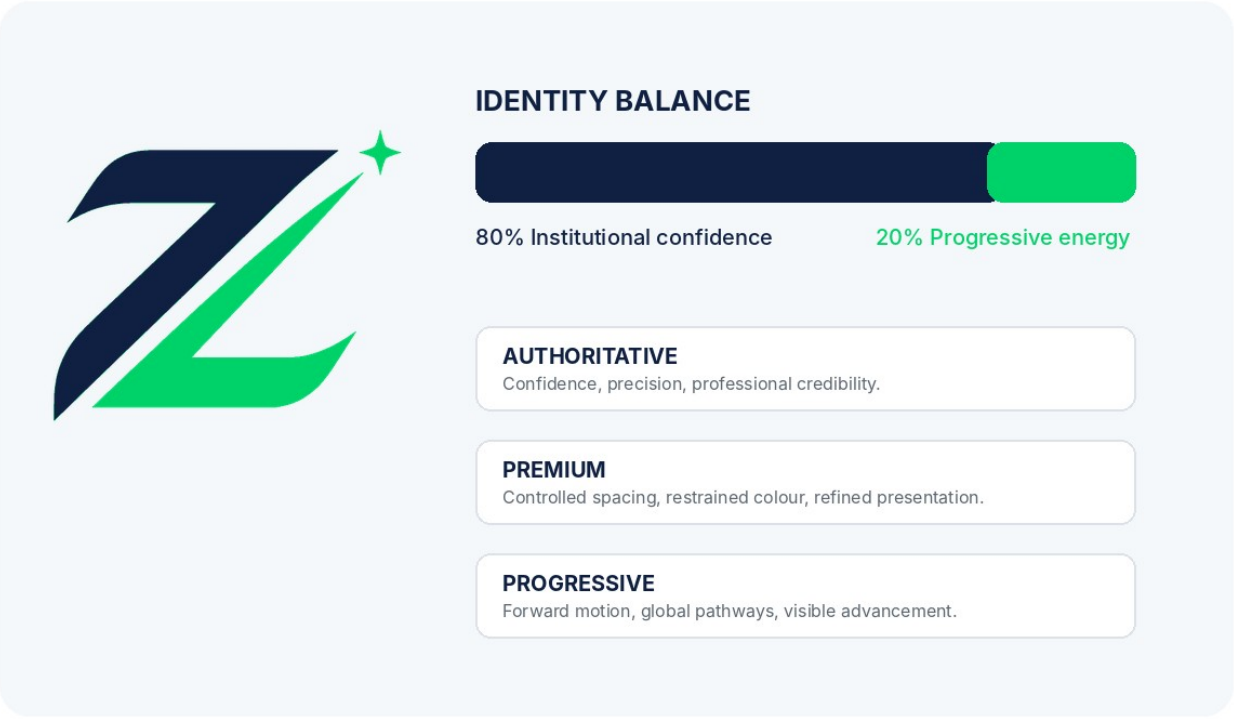

This document defines the approved master identity and the minimum standards required to keep the Zevantaa brand consistent across digital, social, document and print applications.

01

Brand Foundation

A premium institutional identity built around trust, progression and structured global opportunity.

Zevantaa is positioned as a premium, institutional and progressive corporate brand. The visual identity should communicate confidence, precision and security without becoming rigid, bureaucratic or visually dated.

The core logo communicates a structured pathway to advancement. The stylised Z anchors the identity, while the emerald trajectory and star introduce movement, aspiration and achievement. The identity is designed to feel clean first and expressive second.

02

Logo System

The logo is a locked symbol + wordmark system. Its geometry, spacing and lettering must not be reconstructed or retyped.

ZEVANTAA

CAREERS PVT LTD

PRIMARY FULL-COLOUR LOCK-UP

LOGO CONSTRUCTION

The master logo comprises three linked components: the stylised Z symbol, the custom ZEVANTAA wordmark, and the CAREERS PVT LTD corporate descriptor. The ZEVANTAA / CAREERS PVT LTD lettering is custom vector artwork and is not an editable type treatment.

Standalone symbol

The Z + trajectory + star may be used independently for favicons, profile icons and compact digital applications. It must retain the approved geometry and colours.

LOCKED ARTWORK • DO NOT RETYPE • DO NOT RESPACE • DO NOT RECONSTRUCT

03

Approved Logo Variants

Use the variant that provides the strongest clarity and contrast for the application.

PRIMARY FULL COLOUR
Preferred on white and very light backgrounds.

REVERSED
Use on Midnight Navy and approved dark backgrounds.

MONOCHROME BLACK
Use for one-colour print, stamps, photocopying and legal applications.

MONOCHROME WHITE
Use for single-colour reverse applications on dark backgrounds.

Do not create additional colour combinations without approval. The core identity is intentionally restrained and should remain visually consistent across channels.

04

Colour System

A two-colour corporate palette: Midnight Navy provides authority; Emerald provides movement and opportunity.

Deep Midnight Navy

HEX #0F2042
RGB 15 / 32 / 66
CMYK* 77 / 52 / 0 / 74

Primary institutional colour. Use for the wordmark, major headings and high-authority brand surfaces.

Vibrant Emerald

HEX #00D26A
RGB 0 / 210 / 106
CMYK* 100 / 0 / 50 / 18

Accent colour. Use for trajectory, progress cues, highlights and restrained calls to action.

Supporting neutral: White #FFFFFF

*CMYK values are process-print approximations. For high-value print production, use a physical proof and allow the print vendor to optimise for the selected substrate and press.

Use Navy and White as the dominant visual environment. Emerald should remain an accent rather than becoming the dominant canvas colour.

05

Typography

The logo lettering is custom artwork. Corporate typography applies only to communication outside the logo.

LOGO TYPOGRAPHY IS LOCKED ARTWORK
“ZEVANTAA / CAREERS PVT LTD“ must never be retyped, respaced or substituted with an approximate font. Use the supplied vector logo files.

MANROPE

Primary display / heading

Global pathways. Built with precision.

Bold 700 • Semibold 600 • Medium 500

Use for major headlines, campaign titles, section headings and presentation titles.

INTER

Body / interface

Clear information should feel effortless to read. Inter supports forms, navigation, reports, tables and long-form content with a neutral, professional tor

Regular 400 • Medium 500 • Semibold 600

Use sentence case by default.
Reserve uppercase for short labels only.

WRITING STYLE

DEFAULT
Use sentence case for body copy and most headings. Keep spacing controlled and readable.

UPPERCASE
Reserve uppercase for short labels, navigation markers and compact eyebrow text.

AVOID
Decorative, condensed or overly futuristic fonts that undermine institutional credibility.

HIERARCHY
Manrope carries display impact; Inter carries clarity and long-form readability.

06

Logo Usage Standards

Simple rules that protect recognition, contrast and consistency.

CLEAR SPACE

Maintain a protected exclusion zone around the complete logo.

X = 10% of the full logo width. No text, border, image edge or competing graphic should enter this zone.

FULL LOGO - DIGITAL	FULL LOGO - PRINT	STANDALONE ICON
Minimum 180 px wide	Minimum 35 mm wide	Minimum 16 px where legibility remains acceptable

Backgrounds: use the full-colour logo on white/light backgrounds; use the reversed logo on Midnight Navy or other approved dark backgrounds. Avoid low-contrast or visually busy backgrounds.

CORRECT & INCORRECT LOGO USE

Keep the identity consistent. Do not alter colour, proportion, effects or component relationships.

APPROVED

CORRECT
Approved full-colour lock-up

AVOID

DO NOT STRETCH
Never distort proportions

AVOID

DO NOT RECOLOUR
Use only approved variants

AVOID

DO NOT ADD EFFECTS
No shadows, glow or rotation

07

Brand Asset Guide

Use the supplied file format that best matches the application. Do not rebuild the logo from screenshots or low-resolution files.

FORMAT	BEST FOR	GUIDANCE
SVG	Web, UI, scalable digital	Preferred digital master. Scales without quality loss.
PDF	Professional sharing, print	Vector PDF suitable for printers and document workflows.
EPS	Legacy / specialist print	Use when requested by print or production vendors.
PNG	Social, presentations, office use	Use transparent PNG for general digital placement.
ICO	Website favicon	Use the supplied multi-size favicon file.

CORE ASSET INVENTORY

- Primary full-colour master: editable SVG, plain SVG, vector PDF and EPS.
- Transparent PNG masters: 4096 px, 2048 px, 1024 px and 512 px.
- Reversed logo: White + Emerald for dark-background applications.
- Monochrome logo: Black and White variants.
- Standalone Z icon: SVG and PNG.
- Favicon / application icons: 16, 32, 48, 180, 192 and 512 px plus ICO.

BRAND GOVERNANCE
The approved master identity should remain unchanged unless Zevantaa formally approves a revised brand standard. All future creative and digital applications should use the supplied master assets and the rules in this document.
